Eligible data breach under the Notifiable Data Breaches scheme (Scheme)

The College is required to mandatorily report eligible data breaches to particular individuals and to the Office of the Australian Information Commissioner (**OAIC**). An eligible data breach will occur if:

- there is unauthorised access to, unauthorised disclosure of, or loss of personal information held by the school; and
- a reasonable person would conclude that access, disclosure or loss would be likely to result in serious harm to any of the individuals to whom the information relates; and
- the College has not been able to prevent the likely risk of serious harm with remedial action.

The College has a Data Breach Response Plan (**Plan**) which is intended to enable it to contain, assess and respond to data breaches in a timely manner and to develop processes to assist the College to respond to a data breach. The Plan also assists the College to meet its obligations under the Scheme, to ensure that affected individuals are notified about serious data breaches as well as the OAIC. The scheme is administered by the OAIC.

Examples of serious harm as a result of a data breach are malicious action such as theft of laptops containing personal information or 'hacking' of databases that contain personal information, but may also arise from internal errors or failures to follow information handling policies. Each of these examples may give rise to an obligation on the College to comply with the requirements of this Scheme.

In deciding whether a reasonable person would conclude that a data breach would be likely to result in serious harm to an individual, the following factors may need to be considered: -

- the kind of information
- the sensitivity of the information
- the extent to which the information is protected by security measures, eg. encryption
- the kind of persons who have obtained, or could obtain the information
- the nature of the harm an individual could suffer (consider whether an individual might suffer physical, psychological, emotional or financial harm or harm to reputation).

If the College is aware that there are reasonable grounds to suspect that a data breach may have occurred, it is required to carry out a reasonable and expeditious assessment to ascertain whether a breach did in fact occur and this must happen within 30 days. Attached to this Policy is the Plan.

Access and correction of personal information

Under the *Privacy Act* and the *Health Records Act*, an individual has the right to seek and obtain access to any personal information and health records respectively which the College holds about them and to advise the College of any perceived inaccuracies. Students will generally be able to access and update their personal information through their parents, but older students can seek access and correction themselves.

Star of the Sea College

Privacy Policy

There are some exceptions to these rights set out in the applicable legislation.

Personal and medical information about students is managed by parents through the third-party provider, Operoo. Parents make changes to this information themselves.

To make a request to access or to update any personal information the College holds about you or your daughter, please contact the Principal in writing. The College may require verification of identity. The College may charge a fee to cover the cost of verifying the application and locating, retrieving, reviewing and copying any material requested. If the information sought is extensive, the College will advise the likely cost in advance. If the College cannot provide access to that information written notice explaining the reasons for refusal will be provided.

There will be occasions when access is denied and the reason for refusal is not provided, if doing so may breach the privacy of another person. Such occasions would include where release of the information would have an unreasonable impact on the privacy of others or where the release may result in a breach of the College's duty of care to the student.

Consent and rights of access to the personal information of students

The College respects every parent's right to make decisions concerning their daughter's education. Generally, the College will refer any requests for consent and notices in relation to the personal information of a student to the student's parents. The College will treat consent given by parents as consent given on behalf of the student, and notice to parents will act as notice given to the student.

Parents may seek access to personal information held by the College about them or their child by contacting the Principal in writing. The College may, at its discretion, on the request of a student grant that student access to information held by the College about them, or allow a student to give or withhold consent to the use of their personal information, independently of their parents. This would normally be done only when the maturity of the student and/or the student's personal circumstances warrant it.

Enquiries and complaints

For further information about the way the College manages personal information or complaints about privacy, please contact the College Principal by writing or telephone (03) 9595 9595.

The College will investigate any complaint and will notify the relevant people in relation to the complaint as soon as is practicable after it has been made. A further complaint may be made to the OAIC if the process is deemed unsatisfactory. Contact details are:
