Dear Parents of Year 9 Students 2025,

On your daughter's Booklist for Year 9 you will find that we have listed a CAS TI-Nspire CX-II.

All students studying Mathematics at Year 12 level must have access to a CAS (Computer Algebra System) calculator. These calculators are sophisticated, specialised computers that have algebraic, graphical and numerical facilities. As such, students need access to these calculators over a long period of time so they can familiarise themselves with the procedures and nuances involved in the use of CAS calculators. We have used CAS calculators at Star with students for many years now and we are confident that CAS enhances our students' understanding of Mathematics. It also enables problems that are more meaningful to students to be more readily accessible.

All Year 9 students are expected to purchase a CAS TI-Nspire CX-II. Each year, we organise a bulk purchase of these calculators to ensure that our students have the correct calculator ready for the first day of Year 9 classes at the best available price. The price of \$225 is only available through this deal from Schoolbiz.

Attached to this letter is information from Schoolbiz. This brochure outlines the process for purchasing and receiving the calculator.

This calculator will need to be purchased before the beginning of next year's academic school year.

This deal ensures that your daughter will have the correct calculator for the first day of Year 9, and at a very competitive price.

Should you have any questions or queries please contact me.

Yours sincerely,

Chris Nichols
Mathematics Faculty Leader

CALCULATOR ORDERING INSTRUCTIONS

1. To order your school calculator go to www.schoolbiz.com.au
2. Enter the school portal code of **SOSC**
3. Select your required calculator bundle, enter your student's details and delivery address and pay by VISA or MasterCard.
